

Biography: Adriene McClarron

Applications Review & Processing Team
Water Quality Division
Texas Commission on Environmental Quality

Current Position

Adriene McClarron is a License & Permit Specialist IV. Her duties include the administrative review of Domestic, Industrial, Concentrated Animal Feeding Operations and Sludge individual permit applications, Sludge registration applications, and Small Municipal Separate Storm Sewer System (MS4) general permit applications.

Prior Experience and Education

Adriene began her career with the Texas Commission on Environmental Quality in March 2000 as an Administrative Coordinator in the Water Quality Division, where she gained considerable knowledge in the wastewater permitting process. In August 2001 she began working with the Applications Review and Processing Team.
